ABC's of Architecture

July 27 - July 31

1st - 5th Graders

Camp days will be split between independent hands-on activities focused on the basics of architecture and a group project. Campers will create an architecture firm to tackle brainstorming, create blue prints, digitally draw, and design interior mood boards. A sketching field trip to Longwood Gardens will highlight traditional, modern, and playful architecture to inspire their design. Campers will also build a public art sculpture together.

Monumental Design

August 4 - August 7

6th - 8th Graders

Campers will work together as an architecture and design studio to design a monument in celebration of the United States 250th birthday. Campers will take sketching and photography field trips in and around Philadelphia, work with design software, build a wood model, create marketing, and develop a digital presence to promote their work.

Hours: 10 am - 3:30 pm

Location: 753 Bradford Terrace, Springfield

Fee: \$385 for the week

Daily snack provided

Campers bring lunch and water bottle
